

Our partner BTS Rail Saxony once again says "**invite BTS members**" **on May 7th, 2020** at the Wurzen foundry - [Gießerei Wurzen](#). We from GKZ think it's an issue for us too and say thank you BTS for inviting us!

The foundry looks back on over 140 years of company history.

Together with Esterer Gießerei GmbH Altötting, the company is now one of the leading system suppliers in Europe. From traditional casting processes to innovative 3D printing technologies - look forward to getting to know a traditional company with an innovative spirit. Of course, exclusive glimpses of the foundry are included!

**Registration deadline: April 29, 2020**
